## CITIZEN's Galaxy of Quartz Watches. Cryston.

Citizen Quartz Cryston with Alarm tells you politely that it's time - any time, at the 24-hour day. Then there are our 6-function quartz digitals: second, minute, hour, day, date, AM/PM. Cryston Solar Cell uses the most natural power source available - light. And they are only part of a complete line of Citizen Quartz Crystons. Every model is accurate to within seconds a month.

Citizen was making reputable timepieces long before quartz crystal technology came on the scene. That's why we are able to combine our traditional watchmaking experience with the new know-how. Each Citizen Quartz Cryston reflects the same care and attention that produced, for example, the unique Mega Cryston, accurate to within 3 seconds a year.

# CITIZEN

برندی قدیمی و خوشی قیمت که سال هاست در ایران فعال است، سیتیزن در سال ۵۴ این چنین ساعت های دیجیتال خود را معرفی کرده بود.
